

CABINET FOR ECONOMIC DEVELOPMENT

Andy Beshear
GOVERNOR

Old Capitol Annex
300 West Broadway
Frankfort, Kentucky 40601

Jeff Noel
SECRETARY

August 1, 2024

The Honorable Andy Beshear, Governor
Office of the Governor
700 Capital Avenue, Suite 100
Frankfort, Kentucky 40601

RE: Government Resources Accelerating Needed Transformation (GRANT) Program of 2024

Dear Governor Beshear:

Pursuant to KRS 154.14, the Cabinet for Economic Development is required to submit a monthly report to the Governor and the Interim Joint Committee on Appropriations and Revenue about each match applicant for the Government Resources Accelerating Needed Transformation (GRANT) Program of 2024.

The GRANT Program of 2024 monthly report for the period from July 1, 2024 through July 31, 2024 along with the following data is attached as follows:

- Detailed report of applicants approved for obligated funds
- Individual project reports for each approved application
- Detailed report of applicants denied

Please contact me at (502) 782-1987 if there are any questions regarding this report.

Sincerely,

A handwritten signature in blue ink that reads "Katie Smith".

Katie Smith
Deputy Secretary & Commissioner
Department for Financial Services

Estimated Begin Date: June 7 2024 **Estimated End Date:** June 30, 2026
Project Description: The Scottsville Road Multi-Use Path project will improve safety on a state highway that has been site of past pedestrian fatalities. Scottsville Road is one of the busiest roads in Bowling Green. This multi-use path will improve safety and enhance tourism in the area. This will also close gaps in the local greenway network providing more opportunities for residents to engage in healthy activities such as walking and biking.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Improve traditional infrastructure
- Create or expand recreational facilities
- Acquire private property that promotes local economic vitality & housing development/enhancement
- Construct or expand other facilities that promote or enhance economic development or tourism opportunities

Project Description: The City of Bowling Green is requesting \$1,500,000 of Active Transportation Infrastructure Improvement Program grant funding for the preliminary engineering, environmental analysis, and final engineering for its Jennings Creek greenway. The Jennings Creek Project will fill the largest gap in Bowling Green's greenway system, creating opportunities beyond just a connected trail network. It will provide an active transportation route across the west end of Bowling Green, a lower income and demographically diverse area, connecting schools and parks, but also connecting to other trail spokes into downtown with additional trail connections accessing numerous necessary destinations, such as schools, government offices, shopping centers/grocery stores, and/or medical facilities.

Project Description: Replacement of the sidewalks along Main Street beginning at West Street and Main Street of the intersection of Main Street and Euclid Avenue. Our sidewalks are in bad condition. In many places, the sidewalks are broken, uneven, cracked and missing concrete in parking lot entrances. It is dangerous in some areas for pedestrians to walk especially after dark. Several downtown businesses have closed due to the condition of the sidewalk. These closings have caused several buildings to remain vacant causing an economic hardship to the building owners and the City.

Eligible Uses to occur at the Project:

- Improve traditional infrastructure
- Restore or create retail facilities, including related service, parking and transportation facilities, to revitalize decaying downtown areas
- Construct or expand other facilities that promote or enhance economic development or tourism opportunities
- Provide facilities and activities for local residents that enhance quality of life

Regional Project? No **Participating counties:** Magoffin
Priority Community? Yes
Estimated Begin Date: August 1, 2024 **Estimated End Date:** December 31, 2025
Project Description: The City of Salyersville is seeking to rehabilitate seven wastewater lift stations and to make significant upgrades to the city's sewer. The existing sewer recently sustained a massive leak resulting in significant storm water infiltration. The City of Salyersville will benefit by updating their system through savings on wastewater treatment, electrical power, and chemical expenses. This should also reduce the need for rate increases to sewer customers.

Eligible Uses to occur at the Project:

- Improve traditional infrastructure
- Restore or create retail facilities, including related service, parking and transportation facilities, to revitalize decaying downtown areas
- Construct or expand other facilities that promote or enhance economic development or tourism opportunities
- Provide facilities and activities for local residents that enhance quality of life
- Improve the existing sanitary sewer system to prevent the inflow and infiltration of ground and storm waters being treated at the WWTP. Work will be completed in city streets and state right of ways.

Project Information

Location (city): Liberty **Location (county):** Casey
Regional Project? No **Participating counties:** Casey
Priority Community? No
Estimated Begin Date: January 1, 2025 **Estimated End Date:** September 30, 2025

Project Description: This project entails the renovation of approximately 5,627 linear feet of existing sidewalk in the existing city right-of-way in Downtown Liberty across four different project areas. The existing sidewalks are very old and currently in advanced states of disrepair and non-compliance with modern safety and ADA accessibility standards. This project will address and correct all of these issues, including: renovation of narrow sidewalks to meet 5ft regulation standard width for accessibility; reduction of dangerous curb heights that pose fall and trip risks; addition of currently lacking accessibility features such as wheelchair accessible ramps and tactile mats at intersections; construction of accessible ramps and the installation of handrails on steps; correction of current stormwater drainage issues leading to ponding of rainwater on streets and flooding into buildings; adding landscape islands and driveway/parking lot entrance aprons to better distinguish between vehicle and pedestrian areas; the relocation of utilities where necessary for project completion; and the seeding or sodding of grassy areas that are disturbed by the project's work.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Improve traditional infrastructure
- Provide facilities and activities for local residents that enhance quality of life
- Other: Project will correct significant public safety and handicap accessibility concerns posed by damaged, aged, and non-compliant sidewalk systems for citizens utilizing Downtown Liberty's sidewalks.

Estimated Begin Date: April 1, 2025
Project Description: This project will assist in the purchase and installation of 3,000 water meters for the City of Jamestown. These meters will benefit 2,832 residences and 168 businesses by allowing more accurate billing. As meters age, they tend to read smaller amounts of water as it passes through the meter. These replacement meters will reduce water loss, improve accountability, and increase revenue. It will also ensure accurate records of water sales allowing for more efficiency for the City. They will allow for 10 or more additional years of efficient service and quality utility services.

Location (county): Russell
Participating counties: Russell
Estimated End Date: March 31, 2026

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Improve traditional infrastructure
- Promote agricultural activities and development
- Create or expand recreational facilities
- Provide facilities and activities for local residents that enhance quality of life

Priority Community? No
Estimated Begin Date: October 1, 2024 **Estimated End Date:** December 31, 2025
Project Description: The McCreary County Heritage Foundation plans to construct a café, expansion of a public parking lot, correct drainage issues, replace downtown signage, and restore multiple historic buildings. This project will assist in efforts to attract additional tourists and stimulate economic growth in the area.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Promote or develop an artistic or philanthropic purpose
- Improve traditional infrastructure
- Enhance development of previously mined areas or areas previously used by the coal industry and other industrial activities into uses that diversify the local economy
- Create or expand recreational facilities
- Preserve or enhance buildings that are of local historic or economic interest
- Restore or create retail facilities, including related service, parking and transportation facilities, to revitalize decaying downtown areas
- Construct or expand other facilities that promote or enhance economic development or tourism opportunities
- Provide facilities and activities for local residents that enhance quality of life
