KENTUCKY ECONOMIC DEVELOPMENT FINANCE AUTHORITY TIF REPORT - FINAL APPROVAL

Date:

May 26, 2022

Preliminary Approval:

December 10, 2020 City of Covington KY

Applicant: Project Name:

Covington Central Riverfront

City:

Covington

County: Kenton

Program Type:

Signature Projects

TIF Term:

30 years

DFS Staff: Kylee Palmer

Project Description:

From 1967 to 2019, the project site served as a massive tax processing facility for the IRS. At its peak, the IRS operations facility employed up to 4,000 workers. In September 2019, the Covington IRS processing center closed its doors permanently. Its closure resulted in 23 acres of unused land and an obsolete 17-acre single-story structure along the Ohio River with a disrupted street grid and a loss of approximately \$1.5 million in annual payroll tax to the City of Covington.

The City of Covington has embraced the closure of the IRS facility as a unique opportunity for meaningful and fruitful development in the Covington urban core. Realizing the potential for this site, the City of Covington's project is to transform the unused 23 acres as well as an additional 8 acres into a vibrant mixed-use 31-acre site along the Ohio River, woven seamlessly into the existing urban fabric of Covington. The project will involve an estimated total capital investment of over \$308.3 million and include office space, retail/restaurant, as well as residential, hotel, expansions to the convention center and a new city hall.

The proposed development is expected to include:

- 200,000 square feet of new office space
- 177 new hotel rooms
- 87,800 square feet of new retail
- 348 new residential units
- 111,000 square foot convention center expansion
- Public Infrastructure

Total estimated cost of the project is approximately \$308.3 million, excluding financing.

Construction began the fourth quarter of 2021 with public infrastructure projects completed in the fourth quarter of 2025. Completion of private investment projects will be phased in over years 6-10.

Infrastructure:

Infrastructure costs total approximately \$80.9 million:

- Land preparation
- Public buildings/structures
- Sewers/storm drainage
- Curbs, sidewalks, promenades and pedways
- Roads
- Street lighting
- Provision of utilities
- Environmental remediation
- Public space or parks
