The Project expects to create positive impacts in communities through reinvestment that maximizes long-term value. The construction is expected to begin in 2021 with all phases of the project completed by 2025.

## MEMORANDUM

TO: Kentucky Economic Development Finance Authority

From: Katie Smith, Deputy Secretary and Commissioner

Date: December 9, 2021

RE: Amendment to the KEDFA Loan with UofL Health-Louisville, Inc.

On March 26, 2020, KEDFA approved a loan to UofL Health-Louisville, Inc. in the amount of \$35,000,000 to provide funding to absorb operating losses and capital expenditures in the short-term to assist management in turning the medical operations purchased from KentuckyOne in Louisville into profitable operations. The loan was disbursed by April 1, 2020, and loan payments of principal and interest were to begin April 1, 2025 for 15 years. Additionally, the loan agreement included the ability to forgive up to 50% of each annual loan payment based on the company meeting either of the following options:

- Retain 5,880 full-time, Kentucky-resident jobs being paid an average hourly wage, excluding benefits, of at least \$35.00; or
- Meet both of the following requirements in the Medically Underserved Areas (MUA):
  - Continue operating existing facilities and open at least one additional facility within the MUA or in close proximity to serve the MUA
  - Increase the total number of UofL Health, Inc. and its affiliates family medicine access points providing healthcare services from 10 to 14 in the MUA

KEDFA secured the loan with mortgages, fixture filings and assignment of rents and leases on four properties along with authorization to redirect portions of appropriations from the University of Louisville to KEDFA to cover the amount of delinquent payments (state's right to intercept).

Due to positive financial performance, UofL Health-Louisville, Inc. has requested an amendment to the loan documents to accelerate the repayment schedule to the following:

---

Borderless Distribution LLC is a rapidly growing online retailer that partners with large manufacturers to manage their ecommerce capabilities. The project received final approval on October 31, 2019 to relocate its warehouse operations from Utah to Northern Kentucky to be near Amazon's largest fulfillment center. Since relocating to Hebron, the company's growth has required the need for more space, and the company has leased an additional site at 2250 Progress Drive in Hebron. The company has requested that the new site be included in the project. This First Amendment to Tax Incentive Agreement adds the new site, creating a project campus, and allows the employees working there to be included as Project Employees. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes. The paper then moves on to discuss the challenges of conducting research in culturally diverse settings. It notes that researchers often face difficulties in establishing rapport with participants and in interpreting their responses. To address these challenges, the paper suggests several strategies, including the use of local informants and the development of culturally appropriate research instruments. The final part of the paper discusses the importance of ethical considerations in cross-cultural research. It emphasizes the need for researchers to obtain informed consent from participants and to ensure that their research does not cause harm to the communities they are studying.

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 2000).

There is a growing awareness of the need to address the needs of people with mental health problems, and the importance of providing them with appropriate services. However, there is a significant gap between the current needs of people with mental health problems and the services available to them. This gap is due to a number of factors, including a lack of resources, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

One of the main reasons for the gap between need and service is a lack of resources. There are not enough mental health professionals to meet the demand for services, and there are not enough resources to provide the services that are needed. This is particularly true in the area of community mental health services, which are essential for the prevention and early intervention of mental health problems.

Another reason for the gap is a lack of training for health professionals. Many health professionals do not have the necessary training to deal with people with mental health problems, and this can lead to a lack of confidence and a reluctance to provide services. This is particularly true for general practitioners, who are often the first point of contact for people with mental health problems.

A third reason for the gap is a lack of awareness of the needs of people with mental health problems. Many people do not understand what it is like to have a mental health problem, and this can lead to a lack of empathy and a failure to provide the services that are needed. This is particularly true for the general public, who often have a negative view of people with mental health problems.

There are a number of ways in which the gap between need and service can be closed. One way is to increase the number of mental health professionals and the resources available to them. Another way is to provide training for health professionals, so that they are better equipped to deal with people with mental health problems. A third way is to increase awareness of the needs of people with mental health problems, so that they are better understood and better served.

One of the most important ways to close the gap is to provide community mental health services. These services are essential for the prevention and early intervention of mental health problems, and they can help to reduce the need for hospital care. However, there are a number of challenges to providing community mental health services, including a lack of resources and a lack of training for health professionals.

There are not enough mental health professionals to provide the services that are needed, and there are not enough resources to provide the services that are needed. Department for Financial Services  
**DATE:** December 9, 2021  
**SUBJECT:** Kentucky Entertainment Incentive (KEI) Program

---

During the 2021 Session of the General Assembly, House Bill 249 was authorized to establish Kentucky Entertainment Incentive (KEI) Program to encourage the development of the entertainment and production industry in Kentucky (KRS 154.61). The incentive provides qualifying applicants the ability to recover a portion of qualified expenditures through a refundable income tax credit. KEDFA will be responsible for reviewing and approving projects applying for the refundable tax credit under the new program.

Cabinet staff has prepared proposed guidelines for the KEI Program outlining the terms, conditions, requirements and process for applications (see attachment). Cabinet staff will also be responsible for monitoring the performance of approved applications of the KEI program and reporting annually on the program to the legislature.

Staff recommends approval of the Kentucky Entertainment Incentive Program Guidelines.

## **MEMORANDUM**

**TO:** KEDFA Board Members

**FROM:** Sarah Butler  
Department for Financial Services

**DATE:** December 9, 2021

**SUBJECT:** Kentucky Small Business Credit Initiative (KSBCI)  
Programs

---

The State Small Business Credit Initiative (SSBCI) was created under the Small Business Jobs Act, which was signed into law in 2010. Pursuant to the SSBCI, Kentucky received an allocation from Treasury of approximately \$15,000,000.00 and KEDFA contributed an additional \$5,000,000 to fund the Kentucky Small Business Credit Initiative programs. These programs included the Kentucky Capital Access Program, the Collateral Support Program, the Loan Participation Program and Kentucky Venture Capital Program.

On March 11, 2021, The American Rescue Plan Act was signed into law and provided an additional \$10 billion to fund the SSBCI to support small business credit support and investment programs. The SSBCI allocation from Treasury is over \$117,000,000 for funds to support significant opportunities for economic growth and job creation for socially and economically disadvantaged businesses in Kentucky.

In order to facilitate Kentucky's full utilization of allocated funds and to further enhance the KSBCI programs, the Cabinet requests authority from KEDFA to enter into the initial application for the SSBCI funds due December 11, 2021.

Cabinet staff has prepared a proposed resolution to enter into the application for the KSBCI Programs and recommends approval from KEDFA.
