Kentucky Business Investment Program

October 2021

This fact sheet provides an overview of the Kentucky Business Investment (KBI) Program. For a full discussion of the program requirements, please see KRS 154.32. As with all Cabinet administered tax incentive programs, any inducements offered to an eligible company under the KBI program are negotiated by Cabinet for Economic Development officials and subject to approval by the Kentucky Economic Development Finance Authority (KEDFA).

Enhanced Incentives

Businesses meeting the minimum eligibility criteria may be eligible for incentives through the KBI Program. Projects located in enhanced incentive counties, as well as projects with total investment greater than \$200 million, regardless of county location, may request KBI enhanced incentives. Refer to the last page of this document for more information on the enhanced county determination process and a list of enhanced incentive counties.

Incentive Recovery Parameters	If each of the minimum requirements is not met as of the activation date, the agreement is considered cancelled and the approved company will not be eligible for any of the incentives. If the minimum requirements are met as of the activation date but are not met at the annual review date(s), the incentives may be suspended or, with the appropriate approval from KEDFA, terminated. If minimum requirements are met, the tax incentives remain in place until the authorized recovery amount (approved cost) is realized or for the term of the tax incentive agreement, whichever occurs first. Unused credits that have been authorized for the project may be carried forward for the term of the tax incentive agreement; however, unused credits expire at agreement maturity.	

	New Projects	Existing Projects
Certification Requirement	For new projects locating to the Commonwealth, the company will be required to certify that the project could reasonably and efficiently locate outside of the Commonwealth and, without the incentives offered, the project would likely locate outside of the Commonwealth.	For existing location projects considering expansions in the Commonwealth, the company will be required to certify that the tax incentives are necessary for the project to occur.

	Owned Projects	Leased Projects
Eligible Costs	Eligible costs will only include costs incurred after the date of preliminary approval. For a project to be considered an “owned” project, the approved company or an affiliate either owns the project in fee simple or possesses the project pursuant to a capital lease. Eligible costs for owned projects include 100 percent of the land, building, site development and start-up costs.	Eligible costs will only include costs incurred after the date of preliminary approval. For a project to be considered a “leased” project, the approved company occupies the site of the project pursuant to an operating lease agreement with an unrelated entity that reflects an arms’ length transaction. Eligible costs for leased projects include 100 percent of the start-up costs, building/ leasehold improvements and 50 percent of the estimated annual rent payments for each year of the tax incentive agreement. Existing location leased projects considering expansions shall be eligible for incentives only to the extent of the expansion square footage.
Start-Up Costs	Start-up costs include the costs incurred to furnish and equip a facility, such as computers, furnishings, office equipment, manufacturing equipment, fixtures, relocation of out-of-state equipment and nonrecurring costs of fixed telecommunication equipment.	
Equipment Costs Limitation	For projects not eligible for enhanced incentives, the cost of equipment eligible for recovery as an eligible cost is limited to \$20,000 for each new, full-time job subject to Kentucky individual income tax and created as of the activation date.	

Targets and Potential Adjustments of Approved Cost for Eligible Projects

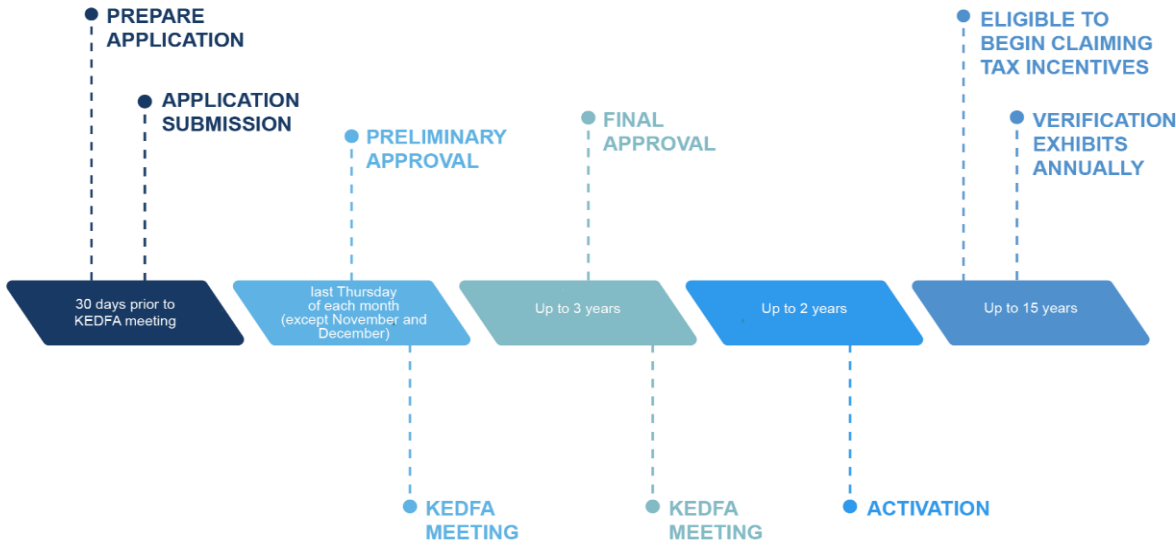

The tax incentive agreement will include the total maximum approved costs that may be recovered over the term of the agreement in addition to the annual maximum approved costs for each year of the agreement. Job and wage (including employee benefits) targets higher than the minimum requirements will be negotiated and included in the agreement. These targets will be measured against actual amounts as of the activation date and averaged annually for the company’s fiscal year throughout the term of the tax incentive agreement.

- Projects that achieve actual job and wage results equal to or greater than 90 percent of the targets will be eligible to claim 100 percent of the annual maximum approved cost for the following year.
- Projects that achieve actual job and wage results less than 90 percent of the targets will incur a reduction of the annual maximum approved cost for the following year equal to the same proportion by which the project fell below its targets. If both targets are missed, the greater percentage reduction will be required.
- If the eligible costs incurred as of the activation date are less than the maximum approved costs, the maximum approved costs will be reduced to the confirmed amount of eligible costs and the annual maximum approved costs will be modified accordingly.

Fees

A non-refundable application fee of \$1,000 is payable upon submission of the KBI application. Prior to final approval, the company will be required to pay an administrative fee equal to one-fourth of one percent (0.25%) of the final KBI amount authorized in the Tax Incentive Agreement up to a maximum of \$50,000. In addition, the company will pay all legal fees, including expenses of counsel to KEDFA, necessary for the preparation of the Tax Incentive Agreement.

Enhanced Incentive Counties

Kentucky counties are designated “enhanced incentive” eligible by meeting at least one of the following three criteria: (1) counties with an average annual unemployment rate exceeding the state average annual unemployment rate in the five preceding calendar years; (2) counties with an unemployment rate greater than 200 percent of the statewide unemployment rate for the preceding year; and (3) counties identified as one of the sixty most distressed counties based on a three part test (three-year unemployment, education attainment and road quality). Once a company enters into a tax incentive agreement, the company maintains its enhanced benefits for the term of the agreement regardless of any change in the county’s status. Any project located in an enhanced incentive county that has been decertified shall have until July 1 of the third year following decertification to obtain final approval. If an “industrial park”, as outlined in the criteria in KRS 154.32, is located in two or more counties, one of which is an enhanced incentive county, projects undertaken in the industrial park may be approved for enhanced incentives.
